## **Assignment of Interest in United States Patent Application**

In exchange for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, Harvey Mudd College, hereby:

A. Sells, assigns and transfers to Assignee, Sekos, Inc., a company of Maryland, having its place of business at 12321 Middlebrook Road, Suite 150, Germantown, Maryland, 20874, its successors, assigns and legal representatives, the entire right, title and interest for all countries, in and to any and all inventions that are disclosed and claimed, and as possessed by the Assignor, any and all inventions that are disclosed but not claimed, in the application for United States Patent, which has been executed by the Assignee concurrently herewith and is entitled "Device and Method for Determining and Detecting the Onset of Structural Collapse," and in and to said application and all divisional, continuing, substitute, renewal, reissue, and all other applications for U.S. Letters Patent or other related property rights in any and all foreign countries that have been or shall be filed on any of said inventions disclosed in said application; and in and to all original and reissued patents or related foreign documents that have been or shall be issued on said inventions;

B. Authorizes and requests the Commissioner of Patents of the United States to issue to said Assignee, the company above named, its successors, assigns and legal representatives, in accordance with this assignment, any and all United States Letters Patent on said inventions or any of them disclosed in said application;

C. Agrees that said Assignee may apply for and receive foreign Letters Patent or rights of any other kind for said inventions, or any of them; and may claim, in applications for said foreign Letters Patent or other rights, the priority of the aforesaid United States patent application under the provisions of the International Convention of 1883 and later modifications thereof, under the Patent Cooperation Treaty, under the European Patent Convention or under any other available international agreement; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the Assignee or the Assignee's executors or administrators will, for the United States and all foreign countries, execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications or other documents on any and all said inventions; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignor, its successors, assigns and representatives, all facts known and documents available to the Assignee relating to said inventions and the history thereof; testify in all legal proceedings; and generally do everything possible that said Assignor, its successors, assigns or representatives shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said inventions and for vesting title to said inventions and all applications for patents or related foreign rights and all patents on said inventions, in said Assignee, its successors, assigns and legal representatives; and

D. Covenants with said Assignee, its successors, assigns and legal representatives, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the Assignor, and that full right to convey the same as herein expressed is possessed by the Assignor.
